

CONSTRUCTION CONTINUES

May 17, 2018 at 9:19 am |

Ryan Silvola/Beloit Daily News (From left): Dan Schooff, Powerhouse project manager for Beloit College, and Paul Kemp, project superintendent, discuss the work being done to the facility on Wednesday. The Powerhouse facility - a \$38 million project at the site of the decommissioned Blackhawk Generating Station on the Rock River - is expected to open in fall of 2019. The new facility will include a pool, fieldhouse, an indoor track, fitness center, event, meeting and classroom spaces available for rent by the public, a lecture hall which seats 160 people, a cafe and decks overlooking the river and riverwalk.
